 (801) 538-1027

1. Administering State Agency: Division of Oil, Gas and Mining 355 West North Temple, Suite 350 Salt Lake City, Utah 84180-1203	2. State Application Identifier Numbers: (assigned by State Clearinghouse) 3. Approximate date project will start: N/A - This is an ongoing operation changing from a SMO to a LMO
4. Areawide clearinghouse(s) receiving State Action: Bill Howell, Executive Director #10 Carbon Circle PO Box 1106 Price, Utah 84501-0881	
5. Type of action: <input type="checkbox"/> Lease <input checked="" type="checkbox"/> Permit <input type="checkbox"/> License <input type="checkbox"/> Land Acquisition <input type="checkbox"/> Land Sale <input type="checkbox"/> Land Exchange <input checked="" type="checkbox"/> Other <u>Changing from SMO to LMO</u>	
6. Title of proposed action: Diamond K Gypsum DKG quarry - M/015/041 - Existing small clay mine operation expanding to a large mine operation.	
7. Description: <u>During Operations</u> Overburden removal with a 950 Cat Loader and a 280.2 Mitsubishi Trackhoe. Cryptobiotic crust (top ~4 inches) is to be salvaged and stockpiled for replacement during reclamation. The gypsum deposit is mined using a road reclaimer instead of drilling and blasting. There are no onsite processing facilities. Mined gypsum is stockpiled onsite and loaded into trucks for shipment. No oil, lubricants, or toxic substances will be drained onto the ground. Mining performed 6+ months out of the year. <u>After Operations:</u> All trash at the site will be removed to an authorized dump or landfill. All disturbed areas will be recontoured to approximate original surface contours. The recontoured area will be furrowed along the contour to leave a rough surface. Salvaged topsoil will be replaced on the recontoured areas. Salvaged cryptogamic soils will be placed on the replaced topsoil. Some reject fines may be placed in the pits as backfill. The disturbed area will be fertilized and seeded using a mix approved by the BLM and DOGM. If necessary, the reclaimed areas may be fenced to prevent damage by cattle grazing while the vegetation is reestablished.	
8. Land affected (site location map required) (indicate county) Emery County, Utah	
9. Has the local government(s) been contacted? To be copied with this notice.	

10. Possible significant impacts likely to occur:

None

11. Name and phone number of district representative from your agency near project site, if applicable:

N/A
